Pre-printed labels for selling toys:

I know you said you wanted Funky Friends Factory labels BUT I have made a generic label so you can use this for ANY independant designer's patterns. When you add the copyright credit for the original designer's pattern it signals to your customers that you respect and support the indie-designer whose pattern you're using to create your products for your business ~ there's NO reason NOT to show us designers some love, I guarantee your customers will respect you for it!
